

Message for Saint Jude Parish
November 17, 2021

The health and safety of everyone who visits and attends Mass at Saint Jude Parish is of critical importance to us.

The Pennsylvania Department of Health notified our parish that someone who visited our church on Thursday, November 11, tested positive for COVID-19. The information we received did not specify any further information but we are sending this notification to fully inform and protect our community.

The Diocese of Scranton strongly recommends that all people wear masks while attending Mass and other indoor events, regardless vaccination status.

Everyone in our community is encouraged to know and keep alert for any potential symptoms of COVID-19, which may include (but are not limited to) fever, cough, shortness of breath or difficulty breathing, muscle pain, headache or a loss of taste and smell. If anyone develops any of those symptoms, they should contact their healthcare provider.

Our parish community wishes to extend prayers for healing and comfort to the individual who is experiencing illness and for all those affected by the coronavirus pandemic.
